KIRSTEN BARRE**Principal**

Kirsten Barre has over twenty years of design experience in landscape architecture and site planning, including site design, construction administration, community planning, parks and open space planning and urban design projects. Kirsten's ability to develop and articulate design concepts has made her a valuable team member which has allowed her to work both domestically and internationally, developing unique solutions to a wide range of project types. Kirsten's international experience includes significant projects in Asia and South America.
